What is the official name change? When does the change take place?

What happens if I send a purchase order in the old name after the name change goes into effect?

Purchase orders and payment will be accepted as KLA Corporation or KLA-Tencor Corporation for a short time after the name change takes effect. However, please keep in mind that for export or L/C controlled shipments, documentation inconsistencies dramatically increase the risk that a shipment or related payment may be delayed or rejected.

Will existing customer agreements, including master agreements, need to be updated or renegotiated because of the name change?

No, there will be no need to change existing agreements, because the name change does not trigger an assignment, transfer, or change of control. Existing agreements will continue to be valid and honored.

Will the banking information change?

No.
